GG Cares

Why did you join the programme?

My journey to start a domiciliary care business was inspired by personal experiences and a desire to make a difference.

When my mother was diagnosed with cancer, we found it challenging to find carers who could cater to her specific needs, particularly when it came to preparing her traditional meals.

How has the support you received helped you and your business?

The advice helped me refine my business plan, understand my target market, and develop effective marketing strategies. Furthermore, the networking opportunities allowed me to connect with other entrepreneurs and industry professionals, fostering valuable relationships and collaborations.

What support have you enjoyed?

Through the Get Enterprising programme, I received invaluable support from Wenta. This included one-to-one business advice, training workshops, and networking opportunities. The programme provided me with the tools and knowledge needed to successfully launch and manage my business.

In the long-term, I envision expanding our services to include care homes.

This would allow us to provide comprehensive care to a larger demographic and create a nurturing environment for those who may not be able to live independently.
